

Prism PI Server Cabinet

Available in 600 and 800 wide, 900 and 1000 deep

To complement the PI data cabinet range, the **PI server cabinet** range has been designed to meet the changing requirements of the server cabinet market.

This range has been designed to complement a PI data cabinet installation as well as meet the required thermal management and load capacity specified by today's major server manufacturers.

Construction - Steel frame chassis with a considerable load capacity

Access - Enclosed glass front door with venting, removable side panels with venting, large floor aperture, quick release door pins

Visibility - Smoked glass front door

Equipment installation - 'U' height position markers for accurate equipment positioning (cable management fitted to front of 800mm wide cabinets)

Thermal management - Ventilated side panels and rear door with mesh insert

Security - Slam-latch front door lock (side and back panels also lockable)

Finish - Stove enamelled Goose grey.

Other colours may be available on request, at additional cost

600 Wide Features:

Size range: 27, 39, 42, 45 and 47u
other sizes may be available on request

Available in 900 or 1000mm deep
Standard colour finish is stove enamelled Goose grey

Standard data cabinet consists of:

- 1 x enclosed glass front door with slam-latch lock
- 2 x lockable side panels
- 1 x rear swing door
- 1 x vented top cover
- 4 x 19" adjustable profiles
- 4 x transport castors

Please note that for ease of transport, assembled cabinets are delivered on standard castors. However, we do not recommend them for installation purposes.

800 wide Features:

Size range: 27, 39, 42, 45 and 47u
other sizes may be available on request

Available in 900mm or 1000mm deep
Standard colour finish is stove enamelled Goose grey

Standard components are the same as for the 600mm wide range opposite, but the 800mm wide unit comes with cable management attached to the front profiles
